1. HIQ Hospitality

HIQ hospitality is integrated automation system and foundation for smart Hospitality. It is based on Robotina/Cybrotech industrial grade controllers and provides full flexibility together with reliability and functionality. System integrators can combine ready made solutions like Guest Room Management System (GRMS-IQ) or Lighting automation (Lihtng-IQ) with fully programmable Cybro (https://cybrotech.com)to create customized and efficient automation for all spaces and systems.

Among unique features of GRMS-IQ are:

- digital keys (efficiency and guest experience without physical key) - integration with 4Spaces and easy integration through API with PMS and other Hotel management solutions - fully automatic reception support - customizable visible elements - EMS compatibility - EV charging integration
