

RB 512-200-W

LiFePO4 battery Energy storage wall

Order code:	RB 512-200-W
Description:	High performance battery pack
Technology:	LiFePO4
Cell:	Grade A prismatic cell
Cycles:	Over 6000 cycles with 80% DoD
BMS:	High end BMS
Compatibility:	xEMS, Deye-R, other inverters
Mounting:	Wall/floor

Features

Compact and powerfull energy storage wall. 51.2 V DC for safe low voltage solutions for home and

small business. Paired with Hybrid inverter and EMS this battery improves any PV Solar system, helps to harvest all energy and offers UPS functionality. ON grid and OFF Grid operation. Full solution can limit grid injection to meet regulations and increase available power for demanding appliances. Depending on tariff system and solution implemented it can help to save up to 100% energy expenses.

Technical specification

Nominal capacity:	10.2kWh
Nominal voltage:	51.2V
End of discharge voltage:	46V
Charging voltage:	56V
Continuous Charge I:	100A
Continuous Discharge I:	100A
Peak Charge/Discharge I:	200A
Charge temperature:	0..55°C
Discharge temperature:	-20..55°C
Parallel Connection:	up to 16
MBS communication:	CAN/S485
Weight:	103kg
Dimensions (WxHxD):	480x615x160mm
Environment:	Indoor, non condensing
